MARCH 6-7, 2018

MARCH 06

INTERACTIVE DIGITAL PROJECTIONS with Mike McKay

Tuesday, March 06, 2pm_A+A ***Sign up by Sunday, March 4th***

Participants will project a line drawing of some geometrical figure(s) onto the atrium interior and then build that projection with vinyl tape lines. From the preferred point of view, the geometry will cohere and appear whole. From all other viewing angles the projection will be morphed and fragmented.
