ARTICLE VIII CRITERIA FOR TENURE & PROMOTION

Candidates for promotion and tenure in the School of Architecture will be evaluated in three areas:

Teaching ability, effectiveness, and curriculum development;
Research, scholarship, creative work, and/or engaged scholarship;
Service to the School, College, University, community, and the profession.

TEACHING

The typical teaching load in the School of Architecture may include 12-20 credit hours per year (3-4 courses) plus independent study courses, advising, and supervision of undergraduate and graduate thesis work. Each faculty must be prepared to teach at all levels of the curriculum. This requires the preparation of written syllabi that state clearly the requirements and expectations of each course. Faculty members are expected to participate in curriculum development by designing new courses as well as refining and redefining existing ones.

Effective teaching may take form through activities that include:

a. preparing a statement of teaching philosophy, attitudes, and goals;
b. showing evidence of formal curriculum development such as new courses and programs, course revisions, curriculum development grants and awards, and the development of instructional materials;
c. demonstrating effectiveness in courses taught, guest lectures in other courses, and workshops given in other departments or at separate institutions;
d. serving on graduate thesis committees;
e. showing evidence of formal teaching recognition through nominations or awards for teaching, given by the University or national organizations;

g. mentoring of honors students, graduate students, research assistants, or teaching assistants.

RESEARCH, SCHOLARSHIP, CREATIVE WORK & ENGAGED SCHOLARSHIP

Architecture faculty produce a wide variety of research, scholarship, creative work, and engaged scholarship. This is a result of many factors including, perhaps most prominently, the diversity of research paradigms that operate within the project of architecture (e.g., historical, technical, cultural, artistic, professional). Essential to the evaluation of each of these paradigms is an understanding of the contribution that the work makes to the discipline, both to the profession and to academia as well as a precise knowledge of the faculty member's role in the work.

Given the range of modes of production and evaluations, it is not possible to compare those working across the various subfields of the discipline. Architecture faculty are responsible for identifying the field or subfield of their area of expertise; areas include architectural design, building sciences and technology, community engagement, history and theory, allied design and planning fields. The record of achievement in research, scholarship, creative work, or engaged scholarship that is presented in a tenure and promotion dossier is evaluated by external reviewers. Research, scholarship, creative work, and engaged scholarship that merit tenure and promotion is expected to be of high quality, have effectively advanced the state of disciplinary knowledge in the candidate's area of expertise, and have demonstrated a significant reception and influence in the field of architecture. Excellence in scholarship, creative work, and engaged scholarship is assessed and demonstrated through a variety of processes. The standards of excellence set by the discipline and profession apply and processes should reflect rigorous, objective, and independent review. Evidence of this advancement should be documented in a dossier for promotion and/or tenure that particularly recognizes the following types of accomplishments and that documents processes of assessment:

1. Publications including the following types with emphasis on peer reviewed work:
   a. journal article;
   b. book or monograph;
   c. scholarly and/or creative activity published through a refereed journal or electronic venue;
   d. edited book;

SERVICE

The architecture faculty, through both elected and appointed committees, plays an important role in the administration of the School, as well as the College and the University. departmental affairs and governance. Senior faculty members are expected to play and demonstrate an active and substantive role in both the administrative and other activities of the School, College, and University.

Service by the faculty member to the community and to the architectural profession is also deemed significant as it gives additional evidence of the candidate’s recognized expertise in his or her field. This service may take form in activities that include:

- peer reviewer of book manuscripts, scholarly articles, or conference papers
- reviewer or referee for grant proposals and publications or participation on professional juries for prizes or competitions
- membership on juries, panels, boards or civic and local governmental commission relevant to the candidates’ field
- participation in national and local professional societies and organizations in the candidate’s field or in related fields

1. The Committee shall be comprised of all faculty above the rank of the candidate. Quorum for the promotion and tenure committee shall be met when 75% of those serving at that rank are present. This recommendation, the vote, and any dissenting statements become part of the dossier.

5. The tenure vote is typically a vote also for promotion from the rank of assistant professor to associate professor. For faculty holding associate rank but not tenured, a tenure vote typically is for tenure and an affirmation of the associate rank. In special cases where an associate professor is seeking both tenure and a promotion to full professor, the committee shall determine if separate votes are needed; one to determine tenure, the other for promotion.

6. The departmental review of candidates for promotion to Senior Lecturer or Distinguished Lecturer occurs in conjunction with the submission of a dossier by the candidate. Quorum for the committee shall be met when 75% of those serving at the prescribed rank are present. All faculty above the rank of the candidate will meet and generate a letter to the Director that records the vote and evaluates the candidate.
